Wednesday	10:30:00 AM	11:15:00 AM	James	Nash	Nuts and Bolts: From Brain Fog to Preaching without Notes. After a stroke and pituitary surgery, I spent the next 18 months trying to regain my health and memory. By the grace of God I was able to go from constant brain fog to preaching without notes and feeling better than I have since college. Before my stroke I had never been able to preach from memory, I always thought it was because I needed to prepare more and work harder. Now, I preach without notes every Sunday, spending less time with more results. I did this almost exclusively through nutrition beginning with three simple words from my neurologist.
