Monday	8:40:00 AM	9:15:00 AM	Alan	Highers	The Origins of Liberalism. In the 1800s, Liberalism started as an attempt to forge a compromise, or "third way," between what academics would call "conservative orthodoxy" (which liberals thought was out of touch and no longer relevant to modern man) and atheism/humanism. Thus, liberals themselves defined their movement as an attempt to "reconceptualize the meaning of traditional Christian teaching in the light of modern knowledge and modern ethical values" (Dorrien). It was, at its core, the rejection of the Bible as the absolute standard of religion.	Keynote	22-Aug	SEC EHA--Front

As Commandant of Officer Training School for the United States Air Force my selected mission statement was to "produce leaders of moral character." This was chosen in the wake of national leadership failures and scandals in the highest ranks of the military and government.
